## PUPIL PREMIUM

The pupil premium allocated to Haslam Park Primary School this financial year is £91,800 with further top-ups amounting to £35,902. It is allocated to students from low income backgrounds which is evidenced by those eligible for Free School Meals for at least six months and those who have qualified at any point over the last six years.

The following information that follows, details how the school has allocated expenditure for the students for activities within the criteria laid down by the DfE. The premium funds are currently £953 per student.

The aim of the additional funding which has laid down criteria as to how it is used to support increased success in attainment and wider achievement. It is a legal requirement that we publish online information about how we have used the premium.

Pupil premium does make a difference to students at Haslam Park Primary School as prior to this funding we were unable to put the reported provisions in place due to constraints of the schools budget.

The priority use of the premium is the additional engagement in teaching and learning for literacy and numeracy, along with improved life and social skills from the input of additional staff resources.

Outcomes of students' academic objectives can be seen on the individual and year group data for students which are scrutinised by staff, the schools leadership team and Governors.
